

WITH A VAST ARRAY OF STATE-OF-THE-ART CNC EQUIPMENT AND SKILLED TRADESPEOPLE, WE SPECIALIZE IN SHAPING STEEL, ALUMINUM, AND STAINLESS INTO PRECISION-CRAFTED PARTS, INTRICATE COMPONENTS, AND ASSEMBLIES FOR DIVERSE INDUSTRIES.

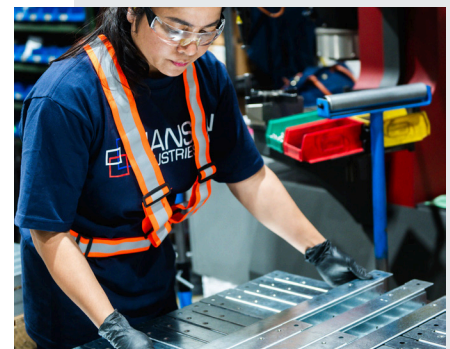

#### INDUSTRIES SERVED

- Electrical
- Electronics
- Construction
- Marine
- Medical
- Architectural
- Mining
- Agricultural
- Automobile
- Aviation
- Forest
- Fireplace
- Furniture

## Sheet Metal Fabrication

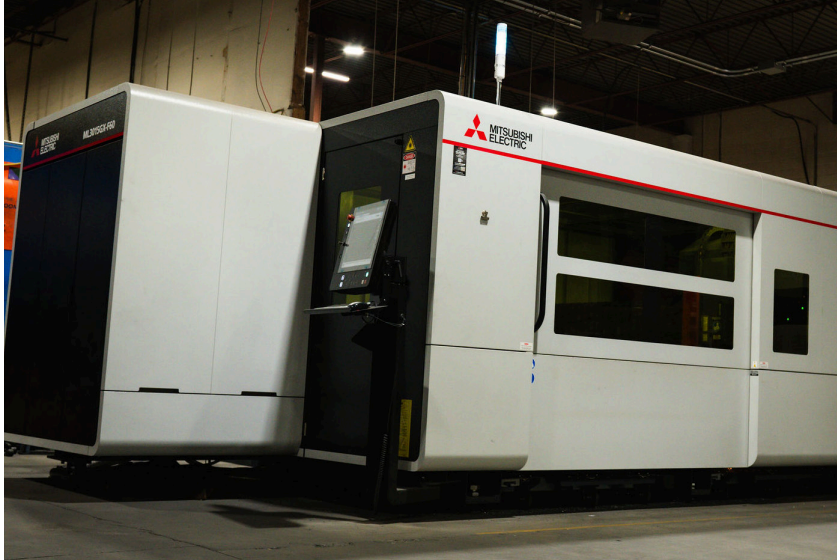

### EXPERIENCE PRECISION LIKE NEVER BEFORE

Our versatile sheet metal fabricating shop delivers superior quality, custom parts and assemblies shaped with state-of-the-art CNC equipment. No project is too detailed for our experienced team who employ meticulous attention to detail on everything from prototypes to large-scale production runs.

# Core Equipment

## 2023 Mitsubishi ML3015GX-60 with tower

### BENEFITS

- 24/7 unmanned operation
- Mitsubishi's fastest laser system
- High cutting quality

## Trumpf 1000 Combination Laser Punch Press with automation

### BENEFITS

- Consistent, precise output
- Lower per-part cost
- Faster production times

## Our other capabilities include:

- Precision Machining
- High Volume Stamping
- Waterjet Cutting
