

WITH AGILITY AND CONSISTENCY, WE HAVE THE ABILITY TO MEET THE MOST DEMANDING SPECIFICATIONS TO PRODUCE WORLD-CLASS, REPEATABLE SHEET METAL STAMPED PARTS.

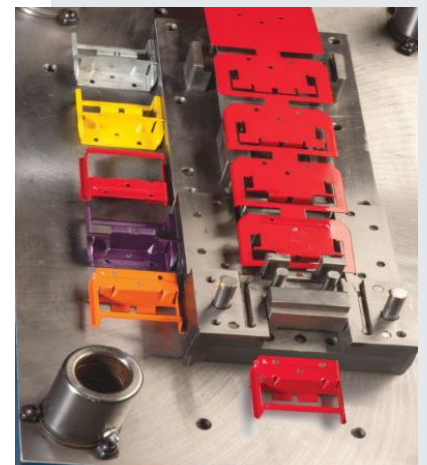

#### INDUSTRIES SERVED

Electrical  
Electronics  
Construction  
Marine  
Medical  
Architectural  
Mining  
Agricultural  
Automobile  
Aviation  
Forest  
Fireplace  
Furniture

## Tool & Die

**CONSISTENT. ADAPTABLE. EXCEPTIONAL.**

With our highly-agile Tool & Die shop, you will never have to wonder “is it possible?” We design, build and maintain the most consistent single stage and progressive metal stamping dies with the help of 3D modelling software; CNC machining equipment; and our highly-skilled journeyman tradespeople. No matter how simple or complex your needs, we have the expertise to ensure you receive superior quality parts.

# Core Equipment

## Komatsu OBS60 Press

### BENEFITS

- Improved die life
- Improved part quality
- High production rates

## Komatsu OBS80 Press

### BENEFITS

- Superior flexibility and accuracy
- Ideal for progressive, transfer, or manual die operations
- Saves energy cost by reducing electricity consumption

## Our other capabilities include:

- Precision Machining
- Waterjet Cutting
- Sheet Metal Fabrication
